PRICE LIST

CHOICE SEED WHEATS, GRASS SEEDS, &c.,
FOR 1874.Address---**YORK, PENN'A.**

We offer a fine supply of the annexed varieties, and ship promptly by Express or Freight as directed. Parties unknown to us will please remit, *with their orders*, (by Draft, P. O. Order, or Registered Letter,) to ensure prompt attention.

SACKS—25c PER BUSHEL, ADDITIONAL; *quart packages of any Wheats (not otherwise specified,) by mail post-paid, at 50c.*

WEEKS' WHEAT.—A very early, bearded, white wheat, hardy and productive, with a good stiff straw, succeeding well on land of moderate fertility; on good soil it yields as high as 45 bushels per acre. **PRICE**, peck \$1, bushel \$3, 10 bushels \$28.

WE annex a few testimonials from parties who have grown it, from our seed:

DANIEL DECKERT, Esq., Halifax Co., Va., writes:—"It is the most beautiful white wheat that I have ever seen grown. The yield to the bushel sown is 20 bushels. I shall sow all I made, so well pleased am I with its yield and general appearance."

MR. W. HARDY, Cass Co., Ga., writes:—"I sowed three pecks on a full acre of poor land, and it yielded 20 bushels. It was sown about Oct. 23th, without any extra preparation. It yielded more than any other wheat on my place this year—nearly double."

MR. W. H. BAILEY, Rowan Co., N. C., writes:—"The 1st bushel sown was sown on about one-fourth of an acre of fair upland, clay sub-soil, and yielded about 10 bushels. It is pronounced by the thrasher the finest wheat threshed by him."

MR. W. B. CALDWELL, Jefferson Co., Tenn., states:—"It branched or shoots ahead of any wheat I have ever seen, many grains making 25 to 30 good heads, and stands up well. I will sow all my crop."

ARNOLD'S NEW CROSS-BRED WHEAT.—A hybrid variety, raised by Mr. Arnold, of Canada, large in head and grain, very early, hardy, stiff straw, and yielded 52 bushels per acre. **PRICE**, 51 per peck, 33 per bushel.

ARNOLD'S NEW CROSS-BRED WHEAT IMPROVED.—An improvement on the above, by careful selection and culture, with much increased heads and grain. Yield this season about 50 bushels per acre. We offer but a limited supply of this, for trial, at \$1 per quart, *by mail*.

KEYES' PROLIFIC.—A bearded amber wheat, with grain of large size, large head, bright yellow straw, and yielding 25 to 35 bushels per acre. **PRICE**, peck, \$1, bushel, \$3.

FULTZ WHEAT.—This variety is highly valued on account of its *reliability* under all seasons and circumstances. It is smooth, red, plump grain, very early, escaping weevil and rust, straw very stiff, tillers well, is hardy, and productive on the poorest soils. Under good culture its yield is from 30 to 50 bushels per acre, according to season, &c.

PRICE, 51 per peck, \$3 per bushel.

BOUGHTON, or TAPPAHANNOCK.—A smooth white wheat of high quality, succeeding best on limestone soil, or land in high condition; has a stiff straw and does not lodge. A most excellent and valuable wheat. **PRICE**, bushel, \$3, 10 bushels, \$28.

WHITE BLUE STEM WHEAT.—A very popular and desirable smooth white wheat, excellent in yield and the quality of its flour. **PRICE**, peck \$1, bushel \$3.

EGYPTIAN or SEVEN-HEADED WHEAT.—This novel variety, known also as "MUMMY WHEAT," has a very large grain, a very stiff straw, and is said to be very productive. It is of interest to every wheat-grower, and quite a curiosity in its way. A grower of it has left with us a limited supply, in packages of 200 grains, (sufficient to enable any one to experiment with it,) at \$1 per packet, *by mail, postage paid*.

RED BLUE STEM WHEAT.—We have succeeded in obtaining a limited supply of this most popular and valuable variety, for which we have had such frequent demands during the past five or six years, which we have until now been unable to meet. It is a smooth wheat, of great productiveness and hardness, enduring the winter well, resists the mildew, and yields a flour of the most superior quality.

PRICE, Peck \$1, bushel \$3, 10 bushels \$28.

Grass and Clover Seeds.—FOR FALL SOWING.

FINEST MIXED ENGLISH LAWN GRASS.—For Cemetery lots, Grass plots, Lawns, &c., making a close, velvety sod. **Quart**, 40c; *by Express* peck \$1.50, bushel \$5.

ORCHARD GRASS.—For Hay or Pasture. *By Express*, peck \$1., bush. \$3.50.

HERDS, or RED TOP.—Valuable for Hay. *By Express*, peck 75c, bush \$2.50.

KENTUCKY BLUE GRASS.—For Hay and Pasture. *By Express*, peck \$1.00, bush \$3.00.

ALSIKE or WHITE DUTCH CLOVER.—Excellent for hay and esteemed for bees. **Per lb.** \$1.00
